Thank you for purchasing iSWEEP products. This instruction manual provides necessary information for proper installation to prevent defects, malfunctions, and accidents from occurring. Please read and acknowledge all procedures before beginning installation. iSWEEP is not responsible for any injuries or death caused by the misuse or negligence of this manual and product.

【Mounting Procedure】

1. Please check the fitting and adhesion position of the iSWEEP roof wing extension to the stock roof wing. If there is a gap due to individual between the OEM spoiler and our iSWEEP product please adjust as necessary.
2. Use a light grit sandpaper and lightly sand the full area where the adhesion will come into contact with the OEM factory spoiler as well as the back side of our iSWEEP roof wing extension. Please make sure that all contact area is clean and free of dust, grease, oils and any other foreign matter. By taking these steps you ensure proper bonding strength of the adhesion and reduce the chances of the adhesion failing.
3. This product requires additional painting by an automotive paint specialist or automotive collision expert.
4. Please apply the supplied bonding adhesive to the top of the genuine roof wing and this product. Please secure with a low adhesion tape to hold securely until the bonding agent cures and sets.
5. Please keep the tape in place for at least 24 hours. It is recommended that the vehicle not be driven during this time.
